

# The simple connection.

Imagine a self-contained, digital signage system that supports virtually any commercial application. A true SoC all-purpose setup with on-board OS (webOS), media player, built in network support and a huge array of robust and reliable screens suitable for virtually any environment. No need to imagine. It's already here.

Smartsign can help strengthen and extend your communication. Thousands of companies worldwide rely on our comprehensive digital signage platform to manage, publish and verify custom content across the globe. On any platform, on any device.

## **All inclusive**

The LG and Smartsign combo is the perfect signage setup, all hard- and software you need included in the package. Just hook it up with power and network and you're in business. Simple, quick, cost effective and future proof. Why make things complicated?

---

## **Screen masters**

Optimal screen performance in almost any condition. Built-in temperature control that adjusts to light and heat, eliminating dark or blackened areas, reduction of color changes and other types of visual distortion from almost any viewing angle. What's your application?

---

## **Signage made easy**

The webOS enabled LG system is extremely versatile. Due to its compact all inclusive properties, on-board media player (SoC) and vast array of different screens, it's a very powerful and adaptive player within the realm of commercial, digital signage display systems. Plug and Play!

# Any content on any device

Feeling lost? We have free online training.
