

Quite a package.

Take one part world class maker of digital screens, mix with one part simple, slick and intuitive digital signage software. Shake well. The result? An ultra-flexible solution that redefines what can be accomplished with an out-of-the-box signage system.

Smartsign can help strengthen and extend your communication. Thousands of companies worldwide rely on our comprehensive digital signage platform to manage, publish and verify custom content across the globe. On any platform, on any device.

SAMSUNG

SSSP?

The Samsung Smart Signage Platform (SSSP) is an all-in-one solution that marries cutting-edge display hardware with a simplified, integrated media player. SSSP uses the display's internal CPU and high-performance video processor, eliminating the need for an external set-back box or PC. The SSSP system can also be extended to support high impact, synchronized video walls.

Versatility matters.

Content is king, and this setup lets you use all forms of it. Images, videos... even websites and live content can be pushed into the mix, landscape and portrait style. Still not convinced? In a nutshell: Enjoy using virtually any file format in your feed, even MS Excel and PowerPoint.

Plug and play. Really.

Nothing kills the creative process like technical hassle and setup issues. The Samsung and Smartsign brotherhood reduces these factors to a minimum. It's dead easy: Connect to network. Enter URL and set clock. Activate Smartsign Cloud Service. Done. Now go focus on your mind blowing, sales chart busting content. This setup will deliver it 24/7, crystal clear, glitch free.

Feeling lost? We have
free online training.
