Push any message (text, images, audio, video or documents) to any smartphone through the Smartsign Mobile Play app. Consider it the ultimate marriage of text messaging and email as this setup lets you push the perfect information mix to any smartphone, delivered in seconds.

Mobile freedom

From the smart and powerful Smartsign Display Manager. Send simple or complex messages including text, images, movies etc. directly to any smartphone. Your content will reach all of your employees/co-workers in real time through the app.

Tailored messages

Target tailored content/messages to different recipient groups to ensure each individual or division receives the right message. Control the information flow through the click of a button.

Omnipresence

Smartsign Mobile Play is the mobile component that extends your communication beyond stationary screens ensuring your information reaches the right individuals and that your co-workers indeed benefit from your message.

How it works...

1. Message creation

You simply choose a feed and create a message using text, images and files in Smartsign Display Manager.

2. Out into the open

Hit send and Smartsign Display Manager pushes the message to all subscribers of the feed.

3. Reaching the masses

The Smartsign Mobile Play app receives a push notice instantly and the message can be downloaded.
